Re: 2003 Water Quality Initiative

Mr. Moher,

It is my pleasure to submit the final report of the 2003 Muskoka Lakes Association water quality initiative. The attached report builds on the study of two previous years and will be followed by a summary of the entire three year pilot project undertaken by the MLA. This synopsis will be submitted by Gartner Lee Limited.

This year's report focuses on the scientific aspects of the programme, describes the 2003 research efforts and results, and recommends a continuation of the initiative in 2004 with a few subtle changes. Further results are available through an online graphical interface available at <http://www.mla.on.ca>.

The interest that the MLA has generated through this initiative demonstrates its importance. I would like to thank the Association for the opportunity to work with you on this project, and look forward to working with you in the future.

Yours truly,
Logan Environmental Consulting
